OBJECTIVE

I am a results-driven computer science student with a solid foundation in frontend development. I possess a strong enthusiasm for generating groundbreaking solutions and making meaningful contributions to projects of significance. I am eagerly looking forward to utilizing my skills and furthering my knowledge within a collaborative work environment.

EDUCATION

Bachelor of Science in Computer Science & Engineering (CSE) 2020 - 2024

- I have Completed coursework in C, Java, JavaScript, database management, networking, machine learning, software engineering, and other relevant programming languages and subjects.
- Demonstrated strong academic performance, showcasing a dedicated commitment to learning.
- Engaged in various university programs and extracurricular activities, contributing to a holistic educational experience.

PROJECT EXPERIENCE

I. University Website Enhancement Project

- Led the redesign and implementation of enhancements to the university website using HTML, CSS, Bootstrap, and PHP.
- Designed and developed an engaging and user-friendly frontend with intuitive sections for notice boards, latest news updates, and university facilities.
- Integrated real-time content update features to empower administrators with efficient content management.
- Enhanced user experience by creating dedicated sections for Father's Information, University Information, Campus Video Showcase, and Department Information.

Explore the hosted website:

This project involved hands-on experience in Frontend Development and PHP, demonstrating my ability to create visually appealing interfaces and integrate dynamic functionalities for improved user engagement.

II. Travel Agency Management System

- Developed a comprehensive Travel Agency Management System using Java on NetBeans, featuring a user-friendly graphical interface.
- Implemented essential features, including:
 - Sign In and Sign-Up functionality
 - Booking Dashboard for user convenience
 - Employee Dashboard for internal management
 - Main Dashboard presenting comprehensive information
 - Agency Trip Information section
 - Payment Options integration
 - Vehicle Dashboard for tracking transportation details

Explore the project on GitHub:

[GitHub Link] (<https://github.com/zubayerfarazi/travel-agency-project>)

This project showcased my proficiency in Java programming, database management, and user interface design, providing a practical application of concepts learned in the database course.

III. Personal Portfolio Website

- Created and developed a professional personal portfolio website.
- Designed and implemented a visually appealing and responsive layout that effectively showcases:
 - Information about my education, skills, and projects
 - Interactive sections for a comprehensive overview
 - Creatively presented contact information for easy accessibility

Explore the hosted website:

[Website Link] (<https://zubayerfarazi.github.io/protfolio/>)

This project not only demonstrated my technical proficiency but also highlighted my ability to design an engaging and user-friendly interface, especially in presenting contact information.

SKILLS

Technical Skills:

- **Frontend Development:** HTML, CSS, Bootstrap
- **Database Management:** MySQL
- **Version Control:** Git
- **Graphic Design Tools:** Adobe Photoshop

Soft Skills:

- Team Collaboration
- Effective Communication
- Problem Solving
- Time Management
- Adaptability
- Attention to Detail
- Creativity

LEADERSHIP AND EXTRACURRICULAR ACTIVITIES

I. Assistant Treasurer

CSE Club, Notre Dame University Bangladesh

- Effectively manage financial transactions and budgeting responsibilities for the Computer Science and Engineering Club.
- Collaborate closely with club leadership to successfully organize and fund various events and initiatives.

II. Vice-Captain

CSE Cricket Team, Notre Dame University Bangladesh

- Serve as the Vice-Captain for the department's cricket team.
- Demonstrate leadership and teamwork on and off the field.
